

“The True Story Of How A 28 Year Old Kid SWIPED A Hidden Goldmine From Right Under The Guru's Noses And Generated Over \$1.4 Profit Online In Record Time ”

Andrew Fox

I kinda feel sorry for them...

Was it

...Arrogance

..... Jealousy

.....Or just thinking the “little guy” could never shake the big giants online?

The funny thing is the Guru's *really* thought they knew “everything” about making money online or so it seemed.

But I guarantee you they never saw this one coming...

Back on a blustery, wet day in October 2006 with the wind howling through the trees I had just pulled off my first \$100,000+ product launch with Clickbank.

(In fact it had actually taken slightly less than 24 hours to break through the six figure barrier)

Yet all the experts seemed to say..

“Clickbank have higher refunds rates”

“Clickbank charge more than my merchant account”

“Clickbank won't let me personalize my order page”

“Was I Missing Something Here?! While All The So Called 'Experts' Moaned About Clickbank I Had Just Generated a Six Figure Cash Windfall”

“Geez, these so-called super gurus don't know what they were missing out on....”

So I did the opposite of what 99% of people do - **I KEPT MY MOUTH SHUT!**

The problem is when people tend to make a bit of money they go a little nuts. They want to be seen as the “expert”, so they run to the latest seminar and blurt out what they've discovered to make money online.

After the seminar ends, they fly back home and realise they have just created 100 INSTANT competitors.

Wrong move...

So I kept my mouth shut and worked silently 'under the radar' saving up for my first home..

“I'll Even Admit It – I Didn't Get Rich Overnight But I Was Able to Save Up \$250,000 For A House Deposit In Less Than 5 Months”

If you break that down to a monthly basis, that's \$50,000 a month which wasn't bad for a kid doing something the so called 'experts' said was a waste of time.

Here's a quick picture of the house I bought for a million dollars.

Just so you know the house wasn't bought with any fancy zero down finance, crazy mortgage deals.

It was \$250,000.00 REAL solid cash that I had generated using the power of Clickbank to fund the deposit.

Clickbank had proven their value to me and this was only the beginning...

“Reversing Back to October 2006, there was another mystery man in the Clickbank shadows generating some BIG numbers... But was he Friend Or Foe?”

Time to find out...

This so-called creator of Affiliate Project X had released his first big guide on Clickbank two weeks before mine...

And had **generated over \$500,000 of sales** (Or so he claimed)

He was a hard man to reach...

No contact emails on his websites...

No last name...

So secretive that I began to question was this guy actually “Real”?

“It turned out Chris X had EXACTLY the same plan as me”

Chris has spotted the “loophole” the gurus had missed out on.

He was on the right track... the *same* track that I had found.

His motto was the same: “Stick to the plan, keep quiet” and sail under the radar the whole time.

Chris and I finally came into contact after I “hunted” him down via some of my online contacts.

“You’re a hard man to reach Chris!”

I could almost hear his smile down the phone

“Good to hear from you mate, I've been watching you”

It sent a chill down my spine – There was almost something “eerie” about this guy – I still couldn’t make up my mind.

That was until he showed me **PROOF of his Clickbank account – Over \$500,000+ from a *single* ebook launch.**

And with \$1000+ days on top of that from affiliate income selling Clickbank products. This guy really knew his stuff.

“Clickbank was the goldmine all the big guru's has turned their noses up at and they were paying for their ignorance... to the tune of millions of dollars in *missed* cash profit opportunities”

How unbelievably wrong they were...

And we were cash in on their ignorance!

Chris and I made a “secret pact” to dominate and take over Clickbank back in 2006.

To create an ongoing flow of intensely valuable products and help each other the whole way to the top.

An alliance was created so powerful, once set in motion it could never be stopped, no matter how much new competition would make its way onto the marketplace. By the time the gurus caught on, it would be too late.

Their ignorance and arrogance would be their downfall.

“6th Febuary 2007 - Enter The Dragon Know As DayJobKiller - \$900,000 In Sales From a \$77 Ebook”

Yes you read right, just under a million dollars - from *one* \$77 ebook!

Chris told me his idea for creating the ULTIMATE ebook showing people how to generate \$300 - \$500 a day income streams (just like he had started out doing). A “Job Killing” income.

We leveraged our new found contacts in the industry and Day Job Killer went on sale 6th Feb 2007.

\$169,000 in a single day...

\$900,000 in 7 days

And the greatest thing for me (that *really* proved my salt to Chris, and everyone else)...

Found 847 items, displaying 1 - 100. Total (all results): \$39,014.56

I was the #1 affiliate by a long way making over \$39,041.56 Net Profit... on my own

The alliance had worked exactly as we thought.....

But then a *second* opportunity had introduced itself to us, and once again, the gurus failed to take note!

”Clickbank introduced their new recurring billing system in September 2007 - More Importantly, they helped me build a recurring income stream of \$231,000 per Month”

I'd been building up to this for a long time.

I was aware Clickbank would be releasing recurring billing into their system and wanted to be the first to jump on it.

Again the gurus ignored this system – they thought they had all the answers.

On 17th September 2007, records were set again as I unleashed “CB Affiliate Formula”.

A website dedicated to training people to become super affiliates.

It was only meant to be a small marketing test and my aim was to bring in 500 members @ \$77 a month.

Well... the whole thing blew totally out of control and we ended up with around 3000 members @ \$77 a month (About 60% of customers has taken out an additional membership to a special software program Chris had created)

3000 members * \$77 = \$231,000 monthly income stream

Time out...

Now I'm not going to insult your intelligence by claiming this was every month. Naturally customers drop off, refunds happen etc..

But I will assure you off this.

IT WAS STILL A PRETTY DAMN HEALTHY INCOME STREAM!

Move on to 2008 and True Wealth Really Started To Grow.

In 2008 I released another 2 Clickbank products of my own and promoted affiliates products and my income kept growing at an alarming rate...

I felt it was time to spend on the things I had always dreamed off.

A Ferrari 355 Convertible (Red With Cream Leather)

Several Luxury Vacations

My and my *ultimate goal* (which I bought last year) - A \$1.5 million yacht

And private jet air travel (THIS ROCKS!)

”The Lies, B.S And True Sharks In The Marketplace Today And Why You Need To Be SO Careful”

MORAL DISCLAIMER:

As I *hope* you can tell, I'm an upfront type of guy...

So I'll level with you....

The above story of what I've told you is a very accelerated version of how I went from nothing (actually around \$40,000 of debt) to getting everything money could buy in less than 2 ½ years.

I admit when I want to achieve a goal I'm very headstrong and did have to work hard to get everything I earned.

So I'm not going to feed you a pipe dream and tell you it can happen overnight.

But it yes...it really *can* happen... I'm proof of that.

From zero to millionaire in 2-3 years... I did it and so did Chris.

Big Numbers Start Out Small But Grow Fast (If You Know What You're Doing...)

Your first stage is to get to \$50 a day, \$100 a day and then to \$300 a day. As Chris calls it... "Job Killing Income".

Clickbank I believe is BY far one of the *best marketplaces* to start or grow an existing business.

I've never seen a system, that when used correctly can allow you to collect profits at such a speedy rate.

Seven Kick-Butt Reasons Why Clickbank ROCKS And Why You MUST Stake Your Share In This Lucrative Goldmine Right Away Before It's Too Late...

- 1) Clickbank has now processed over \$1.2 BILLION dollars in sale and is growing all the time (Just go to their website, www.Clickbank.com and look at the live counter at the top right of the page - huge growth potential)
- 2) You can get approved to start selling your own product in less than 48 hours. (Don't worry if you don't know how to select a product, write sales copy etc. Chris and I will show you how to get up and running FAST with proven templates, special resale rights and other "Quantum" methods.
- 3) If you don't want to sell your own product – no problem. Chris will show you how to pick winning Adwords Campaigns using "Quantum" technology nobody else knows about to select winning affiliate products.
- 4) It's very low barrier to entry. Minimum start up costs and not much capital or previous contacts needed.
- 5) Clickbank has over 100,000+ registered affiliates that want to promote YOUR product. Once you know how to approach them it'll be like taking candy from a baby (I show you this via video tutorial inside the "CB Quantum" Module 1)

- 6) They pay you like CLOCKWORK. Clickbank wire cash straight to your account once a week and have never been late once with a payment. That's what I like to see!
- 7) Last but certainly not least, Clickbank have stood the test of time! Chris and I have been actively using them for over 2 years and they just keep getting better.

Before I Go, Let Me Explain What Exactly “CB Quantum” Actually Means...

Since Chris and I have shared both around five #1 Clickbank best sellers (like the #1 spot shown in the screenshot below)...

... we've often been asked to either privately coach people (for some pretty extraordinary fees) or host a live seminar about our knowledge with Clickbank.

For years we've declined this opportunity because it wasn't something we wanted to do.

But in the back of my mind, I really *did* want to help people cash in with Clickbank - I just didn't want to donate *all* of my time to doing it.

So I'll openly admit, for a while, I toyed with the idea... and finally turned to Chris for us both to create an in-depth home study course on Clickbank in partnership with me that would truly TRANSFORM the industry. “Why” is obvious...

- We both knew how to create six figure ebook launches

- Chris was an expert on PPC marketing to Clickbank markets
- I was an expert on email marketing affiliate products... creating \$40,000 pay days for myself (and this was only my commission... I double that in gross sales, almost every time I promote something.)

Together we created the “CB Quantum” - the ultimate in- depth home study guide disclosing every secret we’ve gleaned and used for profit on Clickbank, with LIVE coaching sessions included to both (Neither of us have ever given our time in this way before.)

We're releasing “CB Quantum” on June 2nd 2009, 3PM EST.

Here's the cool part...

While most “desperate” marketers are trying to ram products down your throat...

.....I'm not even going to try and entice you to buy CB Quantum.

Quite simply because... I don't have to!

The supply FAR out weighs the demand (I'd say by a factor of about 200:1) I don't know the final numbers but Chris reckons we are only releasing around 500 – 700 copies of the CB Quantum package, *total*. My job here is simply to let you know, in case this training is something that you think will benefit your online efforts, and you want to get in quickly.

In The Meantime... Here's How To Snag For Yourself Some **FREE Stuff From The Guys @ CB Quantum**

We've put up a blog at [THIS LINK](#).

We'll be adding a **TON of free content, videos and crazy amounts of other FREE goodies** before June 2nd

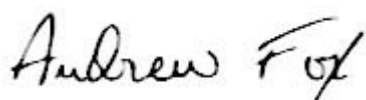

You might want to head over there now and check it all out (if you do, make sure you check back often... we'll be adding a *mass* of free stuff over the next few days). If you want on the 'early bird' pre launch list to get notified of updates go here.

We'll send them out as they come on

P.S- Chris has told me he's adding a super detailed 30 minute+ video showing one of his Google campaign that made him \$463,000 last year on Clickbank. Totally free. [Click this link \(it's not listed ANYWHERE else, so this is the only link you'll find...\)](#)
